EDITORIAL

Team work, motivation and reward are the three basic mantras of success of any organization. Therefore, the need of the time is to be in tune with the growing and changing scenario of the global standards.

Prabhu Dayal Public School provides students with a congenial environment and focus on holistic development. We give the best facilities for co-curricular activities so as to take out children from their inhibition and make them confident and independent.

Our heart felt gratitude goes to all contributors who have supported us to shape this e-news letter , 'BLUE STREAK'. And above all, our esteemed Principal, Dr. Anita Aggarwal who turned our dream into reality.

Wish you a delectable reading!

From the Desk of Principal

“Success comes to those who work hard and stays with those who don't rest on the laurels of the past”.

Today the role of a school is not only to pursue academic excellence but also to motivate and empower its students to be life long learners, critical thinkers and productive members of an ever-changing global society. The school that is being run under the aegis of 'Roopnagar Society' is in its 60th glorious year of its foundation, is providing an atmosphere to our students for multifaceted development. The talents, skills and abilities of each student need to be identified, nurtured and encouraged so that he / she is able to reach greater heights.

I am extremely sanguine that Prabhu Dayal Public School since its genesis in 1959 has offered itself as a shell for sheltering and fostering human minds in their raw state to be matured into empowered innovators. Constant upgradation of visual educational processes and systems have unleashed a trail of glorious feats for us in these sixty years; from outstanding results of AISSCE, AISSE and co-curricular activities. We at PDPS draw our abiding inspiration from the following eloquent lines.

'A dream becomes a goal when action is taken towards its achievement and we are committed in taking constructive and purposeful actions to produce optimistic, independent and compassionate learners and leaders who will bring glory to the school, state and the nation.

Dr. Anita Aggarwal
Principal

From Children's Pen

A day in Kidzania on My Birthday

On my ninth birthday, my parents took me to Kidzania, Delhi NCR. I was very excited to go there. Kidzania is an interactive city that emulate the workings of a real city built-to-scale for children. Here kids learn through role plays. When I went inside they gave me 50 kidzos. Then I started participating in the activities. First, I went to Big Bazaar. I was the manager there and had to put all items back into their right places. When I completed my activity, I earned some kidzos. Next, I went to Supreme Court. I had to solve a case. After the case was solved, I again got some kidzos. After all this, I went to DHL, my favourite one. There I was required to drop and receive parcels.

When my job was completed, I earned more kidzos. Next, I went to a hospital, where I performed a knee surgery. I took part in many other activities. It was the best birthday ever.

Student's Corner

TRAPPED!

Confined to the four walls of my room,
I watch the world outside
Glow and bloom.
At the break of the dawn,
I wish to be in my lawn,
Singing birds,
Chanting with the trees,
Flowing with the stream,
Passing through the breeze.
I wish to see the world
Outside beautiful yet unknown,
Where I wander through the streets
Alone; on my own.
I want to roam, fly, fall, run,
Under the gaze of moon and
Warmth of sun.
I want to walk around
And visit new places,
And even see the people
With smiling faces.
I wish to be a bird to fly around
Or a fish to swim freely in a lake
Or a plant for people's sake
I wish to see the world
Through a new perspective
And reach above the new skies
But then I remember
That I can only wonder
Because I am confined to
The four walls of my room
Watching the world
Outside glow and bloom.

Empowering Education

WE ALL HAVE IT TOUGH.....

Tonight the sun will sink below the horizon. The bees will return to their hives after a long day of nectar collection. The mamma giraffe will heave a sigh of relief as she, once again successfully guarded her sow against the hyenas and lions that tried attacking him. The world will eventually sleep after a long day of struggle. Tomorrow will be another day to live by. The sun will be reborn tomorrow with the same force. The world will be ready tomorrow with the same spark as yesterday. And so you must too.

What you struggled with does not define your future but what you do with the struggle will define you. Are you going to sit there and whine about it or will you toughen up and use the struggle as a motivation? We should resist the temptation of quitting and accept where we are now. Your future might look like a nuclear apocalypse right now, but through pain and bruises, you will always come out on the top. Show yourself that anything is possible and you would survive all the challenges life gives you. There is risk surely. But there's also the exhilaration and beauty of an endless horizon.

FAIR AND UGLY

So now the Indian woman is being held to the standards of the colour code;
Not only is she expected to be brainy
And bright – but now she has to be fair too.
Energy that might be used to further
Positive goals is turned inward instead –
Dissipated in guilt, shame and
Unhappiness at one's physical faults.
The level of fairness / darkness of complexion is completely irrelevant
When it comes to your level of attractiveness. It will take generations
To undo the brainwashing. The British and other rulers may have left India,
But certain racist ideas continue to have a strong hold on our minds.

We certainly need to realize that its more about the personality than what we see
on the outside that defines the person.

Alternatively, whenever you're feeling a little low about your complexion, head to
a western country and laugh at all the people who are desperately trying to get a
gorgeous tan like the one you naturally have!

See the beauty within you and you know it is truly genuine.
