Art & Craft

## Paper Bag

## Materials:

- Pastel paper (or any other thick paper)
- Fevicol
- Scissor
- Ribbon for the bag
- Punching machine
- Colours

## PROCEDURE

Paper bags for everyday use can be done with simple brown paper. Take a pastel sheet (A3) and make a crease at the centre. Paste the two sides together with fevicol. Fold both sides of the paper, this will become the width of the bag, so accordingly make the fold. Open the folds and along the creases made fold inwards on both the sides as shown. Fold the bottom of the bag for a length of around 2 inches. This will depend on the size of the bag you are making. Unfold the last fold made. Along the side crease, fold inwards to form a triangular shaped edge. Fold the flap inwards and flatten it as shown below. Paste the two flaps together using fevicol and press so that the base is firm. Using a punching machine, make two holes on both sides of the bag to attach the handle. If the bag is plain looking and you want to add some colour to it, to add some designs to the bag. Do accordingly.

Moral Value: *Honesty is the best policy. Though truth may seem bitter at first, it is right.*
